

Measuring Guide

Rubber Chair Tips

A Step-by Step guide to measuring the correct size of your insert

1 Step One

The first thing you need to do is measure the external dimension of the tube in which the chair tip will go over.

2 Step Two

Once you have your measurements the next step is to choose the size of your chair tip which is relevant to your measurements. Rubberonline stock various sizes in the black and white Rubber Chair Tips.

Rubberonline Range of fittings

Rubber Chair Tip - Black

Rubber Chair Tip - White
